

Trainee Product Development Engineer

Sheffield / 37.5 hours per week / Competitive salary plus benefits

Abtech has over 40 years of experience in designing, manufacturing and supplying high quality electrical connection solutions to meet our customer's enclosure, high voltage and lighting requirements. Our goal is to be the first-choice supplier of quality electrical connection products worldwide. This, we believe is achieved through innovation, market leading design, rigorous testing and adherence to quality.

We currently have an exciting opportunity for an engineer with some experience in product development. Reporting into the Engineering Manager you will work as part of the engineering team and be involved in product realisation on a variety of Abtech products.

You will work closely with sales, purchasing, marketing, engineering and manufacturing to ensure successful product development.

You will assist in product certification and will be expected to develop an understanding of various international standards relating to Abtech products.

We are looking for a proactive and friendly individual with an engineering background and a willingness to learn and develop into the role. You will have a relevant engineering qualification supported by experience of working in an engineering role. In addition, you will have experience of using 2D and 3D CAD.

You must be well organised and be able to effectively manage your workload. You will be a strong team player with the ability to work on your own initiative. You will be a logical thinker with good analytical and problem solving skills and a can do attitude.

In return we offer a friendly and supportive work environment where hard work is recognised. We will support employee development encouraging our staff to be the best they can be. Along with a competitive salary, contributory pension scheme, medical cash plan, and an Employee Assistant Programme we provide the flexibility needed to maintain a positive work life balance.
